- Self-motivation and anti-stress
- Strong curiosity and ambitions
- Strong executive power

Accomplishment

2nd class Special Talent Scholarship of Software Institution, Nanjing University.

Intern Experience

Time: 2012/07 – 2012/08

Place: huohua.tv

Field: iOS PD

Detail:

I worked as iOS PD in a startup, naming Huohua TV (<http://huohua.tv>), during the Summer Holiday in 2012.

My job is mainly focused on the development of several iOS apps, providing a convenient way to explore series and movies for iOS users.

As a member of a startup, I also need to participate in promoting and designing, with my extraordinary talent in advertising creativity and understanding of HCI.

Project Experience

NJU Innovative Program -- Personalized Recommendation based on iOS

Time: 2011/09 – 2012/09

Detail:

Our team got 8,000 Yuan as budget from Nanjing University.

We are going to work out a solution, based on iOS (other mobile platform may be included as well), which we can get users' geo-location, and provide Personalized Recommendations correctly & usefully.

Tencent Campus Mobile Development Competition

Time: 2011/12 – 2012/03

Detail:

Our team has entered the finals and waiting for the result.

The program we are developing is a game based on iOS, supporting two players compete via Bluetooth.

2011 Morgan Stanley Code Storm

Time: 24 hours

Detail:

My team is named as Lancet, the details are presented on the website that you can access via the following URL: <http://www.morganstanleychina.com/about/careers/codestorm/index.html>

Project Manage System for NJU Software Institution

Time: 2012/03 – 2012/04

Detail:

As a member of a team that formed by my teacher, I, with my fellows, developed a web system for students of Software Institution to manage their project, mainly assigned as homework by our teacher. We use Yii framework to implement.
